

Confederate Sheet Music Collection

In 1987, the Warren D. Allen Music Library acquired a large collection of Confederate sheet music imprints. The collection includes more than 300 items which comprise approximately 40% of all sheet music titles known to have been published in the Confederacy.

The collection includes music by many composers of the era, including John H. Hewitt, Theodore von La Hache, and H.L. Schreiner. Representative publishers of the period include Blackmar & Bros. of Augusta and New Orleans, and J.C. Schreiner & Son of Macon and Savannah. The largest portion consists of sentimental ballads and patriotic songs; however marcher, polkas, waltzes and quicksteps are also well represented. Also of interest to the historian are the many covers which are relevant for both their artistic and sociological value.

Individual titles do not appear on our online catalogue. FSU alumnus John G. Rivest's *A descriptive bibliography of confederate sheet-music imprints held by The Florida State University* (ML 125. C6 R58 1990) describes the contents of the collection in detail. In addition, Frank W. Hoogerwerf's *Confederate sheet music imprints* (ML 125. C6 H66 1984) is a thorough catalogue of all existing confederate era sheet music imprints. There are copies of almost every piece in the collection. There are also 20 items which are Confederate-related sheet music. They do not have Rivest Number Indication, but half of them have Hoogerwerf Number Indication.

The collection is available for research by appointment in the music library. For information, please contact our Head Librarian, Dan Clark.

CONFEDERATE SHEET MUSIC

Title	Rivest No.	Hoogerwerf No.	Notes
